

CREATE A SIMPLE POLLINATOR GARDEN

ITEMS NEEDED: SEED PACKET, POTTING SOIL, RULER, EGG CARTON OR TOILET PAPER TUBE.

1. FILL YOUR CARTON OR TUBE WITH POTTING SOIL.
2. READ YOUR SEED PACKET TO SEE HOW DEEP THE SEED SHOULD BE BURIED. USE BEE FRIENDLY PLANTS AND A RULER TO MAKE SURE THE SEEDS ARE AT THE RIGHT DEPTH.
3. WATER YOUR SOIL AND PLACE OUTSIDE IN THE SUN. CHECK EVERY FEW DAYS TO MAKE SURE YOUR SEEDS ARE GETTING ENOUGH WATER AND LIGHT.

BONUS:

MAKE A GREEN HOUSE: USE A BREAD BAG TO COVER YOUR CARTON, TIE SHUT AND WAIT FOR PLANT TO SPROUT. THIS WILL CREATE A GREEN HOUSE CYCLE OF PRECIPITATION. ONCE YOUR FLOWER SPROUTS REMOVE THE BAG AND WATER AS NORMAL.
